

# Standards Announcement

## Project 2023-06 CIP-014 Risk Assessment Refinement

### Drafting Team Nomination Period Open through August 24, 2023

#### [Now Available](#)

Nominations are being sought for **Project 2023-06 CIP-014 Risk Assessment Refinement** drafting team members by **8 p.m. Eastern, Thursday, August 24, 2023**.

Use the [electronic form](#) to submit a nomination. Contact [Wendy Muller](#) regarding issues using the electronic form. The unofficial Word version of the nomination form is posted on the [Standard Drafting Team Vacancies page](#) and the [project page](#).

Previous drafting or review team experience is beneficial, but not required. A brief description of the desired qualifications, expected commitment, and other pertinent information is included below and on the project page. By submitting a nomination form, you are indicating your willingness and agreement to actively participate in face-to-face meetings and conference calls.

NERC is seeking individuals who possess experience in CIP-014 Risk Assessments including Transmission Owners and Transmission Operators.

The time commitment for these projects is expected to be up to two face-to-face meetings per quarter (on average two full working days each meeting) with conference calls scheduled as needed to meet the agreed-upon timeline the review or drafting team sets forth. Team members may also have side projects, either individually or by subgroup, to present to the larger team for discussion and review. Lastly, an important component of the review and drafting team effort is outreach. Members of the team will be expected to conduct industry outreach during the development process to support a successful project outcome.

#### **Next Steps**

The Standards Committee is expected to appoint members to the drafting team in September 2023. Nominees will be notified shortly after they have been appointed.

For information on the Standards Development Process, refer to the [Standard Processes Manual](#).

For more information or assistance, contact Manager of Standards Development, [Jamie Calderon](#) (via email) or at 404-446-9647. [Subscribe to this project's observer mailing list](#) by selecting "NERC Email Distribution Lists" from the "Service" drop-down menu and specify "Project 2023-06 CIP-014 observer list" in the Description Box.
