The data request regarding the study of single point of failure on protection systems is now available for review and comment on the Order 754 project Page for a forty-five **(45) day** industry stakeholder review as permitted by the NERC Rules of Procedure, Section 1600. An industry webinar is being planned for early June 2012, details will follow in a later announcement.

Background

This posting is soliciting informal comment in accordance with Section 1600 of the **[NERC Rules of Procedure](#)**.[1] NERC may request data or information that is deemed necessary to meet its obligations under Section 215 of the Federal Power Act, as authorized by Section 39.2(d) of the Federal Energy Regulatory Commission's (FERC) regulations. Section 1602 requires NERC to post the proposed request for data or information or a proposed modification to a previously authorized request for data or information for a forty-five (45) day public comment period.

Order 754 is the Final Rule approving Interpretation TPL-002-0a PacifiCorp (**[Project 2009-14](#)**[2]) regarding requirement R1.3.10. In addition to the approval, the Commission expressed a concern about single point of failure of protection systems and issued a directive for further investigation. Refer to the project page for additional background information about the directive.

Instructions

Please use this **[electronic form](#)**[3] to submit comments. An off-line, unofficial copy of the comment form for administrative use is available on the project page.

For more information on the meeting or assistance, please contact Scott Barfield-McGinnis (via email) or at (404) 446-9689 or Wendy Kinnard (via email) or at (404) 446-9735.
