

# Standards Announcement

## Project 2009-01 Disturbance and Sabotage Reporting

### Recirculation Ballot and Non-Binding Poll Results

#### [Now Available](#)

A recirculation ballot of **EOP-004-2 – Event Reporting** and a non-binding poll of the associated VRFs/VSLs concluded on Monday, November 5, 2012.

Voting statistics for each ballot are listed below, and the [Ballots Results](#) page provides a link to the detailed results.

Approval	Non-binding Poll Results
Quorum: 85.14%	Quorum: 78.93%
Approval: 71.39%	Supportive Opinions: 71.04%

#### **Next Steps**

The standard will be presented to the Board of Trustees for adoption and then filed with the appropriate regulatory authorities.

#### **Background**

The DSR SDT has developed EOP-004-2 to replace the current mandatory and enforceable EOP-004-1 and CIP-001-2a standards. The reporting obligations under EOP-004-2 serve to provide input to the NERC Events Analysis Program. Analysis of events is not required under the proposed standard and any analysis or investigation will fall under the Event Analysis Program under the NERC Rules of Procedure.

Additional information is available on the [project page](#).

#### **Standards Process**

The [Standard Processes Manual](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate.
