Standards Announcement

Ballot Pool and Pre-ballot Window

January 29–March 1, 2010

Now available at: <https://standards.nerc.net/BallotPool.aspx>

Project 2009-31: Interpretation of TOP-001-1 for the Florida Municipal Power Pool (FMPP)

An interpretation of standard TOP-001-1 — Reliability Responsibilities and Authorities, Requirement R8, for FMPP is posted for a 30-day pre-ballot review. Registered Ballot Body members may join the ballot pool to be eligible to vote on this interpretation **until 8 a.m. EST on March 1, 2010**.

During the pre-ballot window, members of the ballot pool may communicate with one another by using their “ballot pool list server.” (Once the balloting begins, ballot pool members are prohibited from using the ballot pool list servers.) The list server for this ballot pool is: bp-2009-31_RFI_FMPP_in@nerc.com.

Next Steps

Voting will begin shortly after the pre-ballot review closes.

Project Background

FMPP asked if it is the Balancing Authority's responsibility to take immediate corrective action to restore real power balance and if it is the Transmission Operator's responsibility to take immediate corrective action to restore reactive power balance.

The request and interpretation can be found on the project page:

http://www.nerc.com/filez/standards/Project2009-31_TOP-001-1_R8_FMPP.html

Standards Development Process

The [Reliability Standards Development Procedure](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate.
