

## Standards Announcement

### Project 2010-13.2 Phase 2 of Relay Loadability: Generation PRC-023-3

**Final Ballot for PRC-023-3 is now open through September 13, 2013**

#### [Now Available](#)

A final ballot for **PRC-023-3** – Transmission Relay Loadability is now being conducted through **8 p.m. Eastern on Friday, September 13, 2013.**

Background information for this project can be found on the [project page](#).

#### Instructions

In the final ballot, votes are counted by exception. Only members of the ballot pool may cast a ballot; all ballot pool members may change their previously cast votes. A ballot pool member who failed to cast a ballot during the last ballot window may cast a ballot in the final ballot window. If a ballot pool member does not participate in the final ballot, that member's vote cast in the previous ballot will be carried over as that member's vote in the final ballot.

Members of the ballot pool associated with this project may log in and submit their vote for the standard by clicking [here](#).

#### Next Steps

Voting results for the standard will be posted and announced after the ballot window closes. If approved, the standard will be submitted to the Board of Trustees for adoption and then filed with the appropriate regulatory authorities.

#### Standards Development Process

The [Standard Processes Manual](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate.
