

# Standards Announcement

## Project 2023-01 EOP-004 IBR Event Reporting

**Nomination Period Open through March 8, 2023**

### **Now Available**

Nominations are being sought for **Project 2023-01 EOP-004 IBR Event Reporting** Standard Authorization Request (SAR) drafting team members through **8 p.m. Eastern, Wednesday, March 8, 2023**.

Use the [electronic form](#) to submit a nomination. Contact [Cindy Jackson](#) regarding issues using the electronic form. An unofficial Word version of the nomination form is posted on the [Standard Drafting Team Vacancies](#) page and the [project page](#).

By submitting a nomination form, you are indicating your willingness and agreement to actively participate in face-to-face meetings and conference calls.

The time commitment for this project is expected to be up to two face-to-face meetings per quarter (on average two full working days each meeting) with conference calls scheduled as needed to meet the agreed-upon timeline the review or drafting team sets forth. Team members may also have side projects, either individually or by subgroup, to present to the larger team for discussion and review. Lastly, an important component of the review and drafting team effort is outreach. Members of the team will be expected to conduct industry outreach during the development process to support a successful project outcome.

NERC is seeking individuals from organizations who possess experience in EOP-004 event reporting to include Generator Owner/Operator, Reliability Coordinator, Balancing Authority, Transmission Owner/Operator, and Distribution Provider.

Previous drafting team experience is beneficial but not required. See the project page and nomination form for additional information.

### **Next Steps**

The Standards Committee is expected to appoint members to the SAR drafting team in April or May 2023. Nominees will be notified shortly after they have been appointed.

For more information on the Standards Development Process, refer to the [Standard Processes Manual](#).

For more information or assistance, contact Senior Standards Developer, [Chris Larson](#) (via email) or at 470-599-3851. [Subscribe to this project's observer mailing list](#) by selecting "NERC Email Distribution Lists" from the "Service" drop-down menu and specify "Project 2023-01 EOP-004 IBR Event Reporting" in the Description Box.
