Welcome to Open Access Technology International, Inc. (OATI)

Welcome to Open Access Technology International, Inc. (OATI) Microgrid Technology Center. OATI provides unprecedented software and hardware solutions that simplify, streamline, and empower the operational tasks required in today's energy commerce and Smart Grid. Serving more than 2,000 customers worldwide, OATI successfully deploys and hosts diverse mission-critical solutions committed to industry standards and stringent security guidelines.

The OATI Microgrid Technology Center is a state-of-the-art microgrid, which showcases cutting-edge technologies such as Combined Cooling, Heat, and Power (CCHP), Solar Photovoltaic (PV) and wind generation, energy storage, and sophisticated microgrid control and optimization software.

The main difference between the OATI Microgrid Technology Center and other commercial office buildings is OATI generates its own electricity as the primary source of power. We have demonstrated that the technology can be used for buildings like ours and other microgrid installations across the globe.

As experts in customer service, we want to make sure you have an exceptional experience not only with our solutions but also during your visit to the OATI South Campus. In this informational packet you will find lodging, dining, and entertainment resources. If you need additional accommodations, please contact Travel@oati.net.

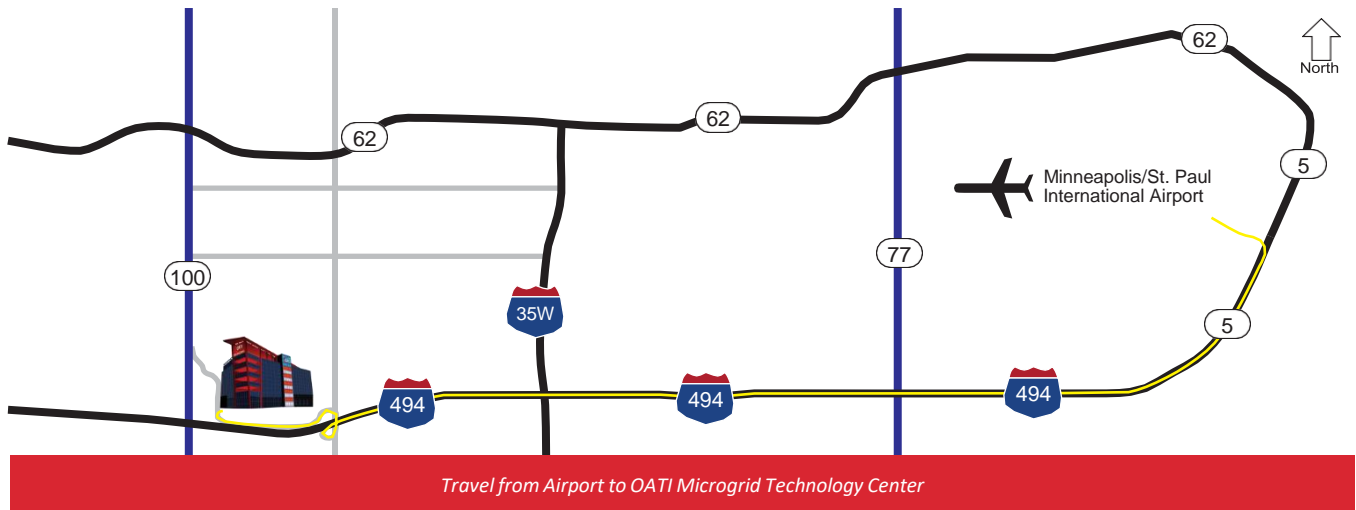

Transportation

The OATI Microgrid Technology Center is located at 7901 Computer Ave, Bloomington, MN 55435.
