Getting Started

• Select GADS Solar Data Reporting Instructions

	GADS Wind	GADS Solar
ts to webE-	GADS Wind reports to GADS Wind	Application under development
	application	GADS Solar Data Reporting Instructions
5	GADS Wind Turbine Data Reporting Instructions	Training
Brochures	GADS Wind Application Update	
	GADS Wind Frequently Asked Questions	

• Select the Solar_Workbook template from the page

Data Re	porting Instruction	ns	
Type	Title Iar Data Reporting I	instructions (2)	Date
_	2024 GADS 9	Solar Data Reporting Instructions	1/1/2024
	Solar Workbo	pok	

- Changing <u>any</u> data formatting in the Excel design data file will result in XML file errors. <u>Do not change the</u> <u>formats.</u>
- Data entry starts in the row with light blue shading just below the column headers. Skipping this row will result in NERC ID, region errors, etc. See picture on next slide for location.
- All data fields are required unless noted

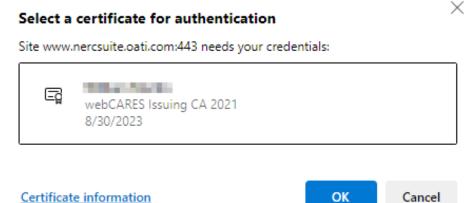

- Be sure to start your data in the light blue row!
- Tabbing past the last column of mapped data starts a new row

assig	·									

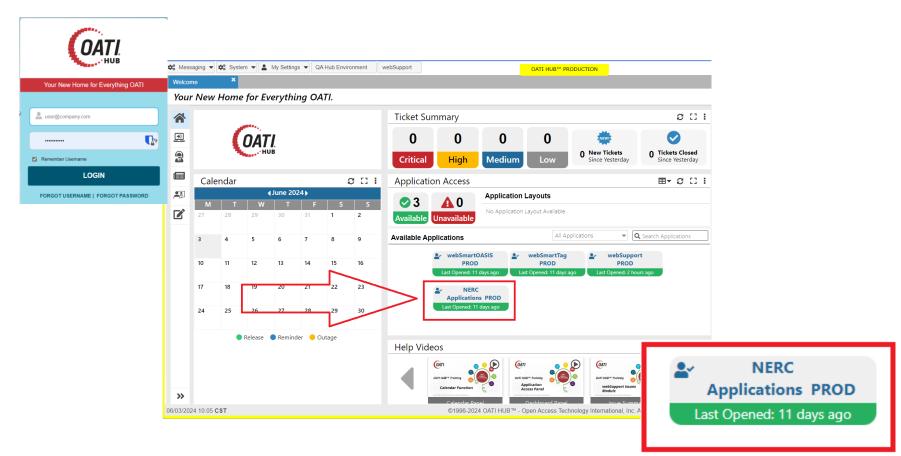

- Digital certificates from OATI are required to access the Solar application
- Digital certification ensure the data exchanged between your browser and OATI is encrypted and confidential
- If you company does not have an OATI webCARES account, have your Security Officer (typically someone in IT) contact OATI support (<u>support@oati.net</u>) or (703) 761-2020
- NERC has authorized OATI to provide two digital certificates to each entity at no cost to the entity; additional certificates are available for purchase from OATI
- Certificates are installed on the user's computer. Select your Cert when accessing the portal and click 'OK'
- Complete the <u>NERC OATI webPortal</u> <u>User Registration Form</u> and send to gadssolar@nerc.net
 - Emails with your user login and a temporary password will be sent, confirming your registration

General Navigation

When creating a new Plant, Inverter Group, Event, etc., you must choose a single parent object for association

By design, multiple filter selections can result in multiple results. Click the blue underlined item of interest for detail

New Import Review	05/03/2024 (06:24:35 EDT				

On many screens, the 'Import' button appears at the bottom left.

Solar Plants Import

Upload Options:	• Update	
	O Append	
File Type:	• XML	
Upload File:*		Choose File
	Submit	

5

Update = There is information in my file that has previously been entered into the system that I am updating.

×

Append = This information is new

Imports and Exports

New Import Export Import History	05/03/2024 06:46:45 EDT

Reporting Period:	* 2024 (01/01/2024 - 12/31/2024) 💌
Upload Options	Update
	OAppend
	O Full Replace
File Type	: • XML
Upload File:	* Choose File

5

Export = Export the information on the screen in XML format. You can then load this information into the Excel template

Update = There is information in my file that has previously been entered into the system that I am updating.

Append = This information is new

Full Replace = Remove everything for the reporting period and start over. We recommend you consult with NERC before doing this
