

Meeting Notes

Project 2020-02 Modifications to PRC-024 (Generator Ride-through) Drafting Team

May 22, 2024 | 12:00 - 4:00 p.m. Eastern

Conference Call with Web Access

Administrative

1. **Review NERC Antitrust Compliance Guidelines and Public Announcement**

2. **Determination of Quorum**

The rule for NERC Standard Drafting Team (SDT) states that a quorum requires two-thirds of the voting members of the SDT to be physically present. Quorum was met. See table below for meeting attendance.

3. **Introductions and Chair's Remarks**

Agenda Items

1. **Review Current Agenda**

2. **Continue Reviewing comments**

3. **Discuss Next Steps, Timeline, and Future Meetings - informational 10 minutes**

4. **Adjourn**

J. Calderon initiated the meeting, called roll, and reviewed the NERC Antitrust Guidelines and Participant Policy.

The team continued to review comments provided during the initial draft comment period. The team finalized the definition of "ride-through" and shared it with the 2023-02 team. There were additional discussions concerning the inclusion of VSC-HVDC within the three Milestone 2 related standards projects. As there is currently no defined term for IBR, the teams moved forward with revisions to the applicability section. As VSC-HVDC with a dedicated connected to an IBR were part of the most recently proposed definition and constitute necessary parts for measuring and modeling performance, revisions were made to the applicability section to include those. Some modifications were made to reflect that change.

Beyond this, the team also discussed necessary revisions for R2 and R3, to add clarity on changes between operational regions and those thresholds. Overall, there was some confusion on how performance within the no-trip zone was to be consistently measured.

| Attendance | | | | |
