### **Comment Period for Project 2006-01 — System Personnel Training Standard Opens February 25, 2008**

The System Personnel Training Standard Drafting Team has posted its third draft of PER-005-1 — System Personnel Training (Project 2006-01) along with an implementation plan, and a reference to aid in implementing the standard.

The purpose of the standard is to ensure that that System Operators performing real-time, reliability-related tasks on the North American Bulk Electric System are competent to perform those reliability related tasks. The proposed standard is applicable to Reliability Coordinators, Balancing Authorities, and Transmission Operators.

Please use this electronic [comment form](#) to submit comments on the third draft of PER-005-1 by **April 9, 2008**.

### **Standards Development Process**

The NERC posting and balloting procedures are described in the [Reliability Standards Development Procedure Manual](#), which contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate.
