Standards Announcement

Ballot Windows Open

March 3–12, 2008

Now available at: <http://www.nerc.com/~filez/standards/MOD-V0-Revision.html>

Six Ballot Windows for Project 2006-07 — ATC/TTC and CBM/TRM Open March 3, 2008

The initial ballot for each of the six ATC-related standards (and its associated implementation plan) is open and will remain open until 8 p.m. (EDT) on March 12, 2008. Each standard has its own [ballot](#) as shown in the following table.

This set of standards is aimed at consistent and transparent calculation, verification, and use of Capacity Benefit Margin (CBM), Transmission Reliability Margin (TRM), Total Transfer Capability (TTC), Available Flowgate Capability (AFC), and Available Transfer Capability (ATC). NERC has a commitment to deliver these standards to FERC by May 9, 2008.

Standard	Description	Ballot
MOD-001-1 Available Transfer Capability	An “umbrella” standard with requirements for the selection of a methodology, the updating of values, and the sharing of procedures and data related to ATC.	ATC-TTC-CBM-MOD-001
MOD-004-1 Capacity Benefit Margin	A standard with requirements for requesting, calculation, and use of CBM.	ATC-TTC-CBM-MOD-004
MOD-008-1 Transmission Reliability Margin	A standard with requirements for the calculation and use of TRM.	ATC-TTC-CBM-MOD-008
MOD-028-1 Area Interchange Methodology	A standard with requirements for the calculation of TTC and ATC, as performed primarily in the Eastern Interconnection.	ATC-TTC-CBM-MOD-028
MOD-029-1 Rated System Path Methodology	A standard with requirements for the calculation of TTC and ATC, as performed primarily in the Western Interconnection.	ATC-TTC-CBM-MOD-029
MOD-030-1 Flowgate Methodology	A standard with requirements for the calculation of TFC and AFC, as well as the conversion of those values to TTC and ATC.	ATC-TTC-CBM-MOD-030

Standards Development Process

The [Reliability Standards Development Procedure](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate. If you have any questions, please contact me at 813-468-5998 or maureen.long@nerc.net.

For more information or assistance, please contact Maureen Long, Standards Process Manager, at maureen.long@nerc.net or at (813) 468-5998.
