

Standards Ballot Reminder

Initial Ballot Results

Now available at: <http://www.nerc.com/~filez/standards/MOD-V0-Revision.html>

Initial Ballot Results for Six ATC-related Standards

The initial ballot for each of the six ATC-related standards (and its associated implementation plan) was conducted from March 3–12, 2008 and the results are shown below. Approval requires both:

- A quorum, which is established by at least 75% of the members of the ballot pool for submitting either an affirmative vote, a negative vote, or an abstention; and
- A two-thirds majority of the weighted segment votes cast must be affirmative. The number of votes cast is the sum of affirmative and negative votes, excluding abstentions and non responses.

The [Ballot Results](#) standards Web page provides a link to the detailed results of each of these ballots. All of the ballots received some negative ballots with comments, and the drafting team will review the comments before determining its next step.

Title	Initial Ballot	
	Quorum	Approval
MOD-001-1 Available Transfer Capability	93.12 %	59.63 %
MOD-004-1 Capacity Benefit Margin	93.01 %	38.80 %
MOD-008-1 Transmission Reliability Margin	93.12 %	63.90 %
MOD-028-1 Area Interchange Methodology	92.74 %	63.05 %
MOD-029-1 Rated System Path Methodology	92.86 %	57.56 %
MOD-030-1 Flowgate Methodology	93.01 %	44.19 %

Standards Development Procedure

The [Reliability Standards Development Procedure Manual](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate.

For more information or assistance, please contact Maureen Long, Standards Process Manager, at maureen.long@nerc.net or at (813) 468-5998.
