

# Standards Announcement **Reminder**

## Project 2007-06 System Protection Coordination PRC-027-1

**Additional Ballot and Non-binding Poll Open through September 11, 2015**

### Now Available

An additional ballot for draft six of **PRC-027-1 – Coordination of Protection Systems for Performance During Faults** and a non-binding poll of the associated Violation Risk Factors (VRFs) and Violation Severity Levels (VSLs) are open through **8 p.m. Eastern, Friday, September 11, 2015**.

The standard drafting team's considerations of the responses received from the last comment period are reflected in this draft of the standard.

### **Balloting**

Members of the ballot pools associated with this project may log in and submit their votes for the standard and associated VRFs and VSLs by clicking [here](#).

*If you are having difficulty accessing the SBS due to a forgotten password, incorrect credential error messages, or system lock-out, contact NERC IT support directly at [EROhelpdesk@nerc.net](mailto:EROhelpdesk@nerc.net) (Monday – Friday, 8 a.m. – 8 p.m. Eastern).*

### **Next Steps**

The ballot results will be announced and posted on the project page. The drafting team will consider all comments received during the formal comment period and, if needed, make revisions to the standard and post it for an additional ballot. If the comments do not show the need for significant revisions, the standard will proceed to a final ballot.

### **Standards Development Process**

For more information on the Standards Development Process, refer to the [Standard Processes Manual](#).

For more information or assistance, contact Standards Developer, [Al McMeekin](#) (via email), or at (404) 446-9675.
