

March 22, 2007

TO: REGISTERED BALLOT BODY

Ladies and Gentlemen:

Announcement: Comment Period Opens

The Standards Committee (SC) announces the following standards action:

SAR for Disturbance Monitoring (Project 2007-11) Posted for 30-day Comment Period March 22–April 20, 2007

The SAR for [Project 2007-11](#) proposes modifying the following two standards:

- PRC-002 — Define and Document Disturbance Monitoring Equipment Requirements
- PRC-018 — Disturbance Monitoring Equipment Installation and Data

PRC-002 is one of four reliability standards identified by the Regional Reliability Standards Working Group as a standard that has some requirements that need to be defined by each regional entity in a regional standard.

The modifications will consider issues raised by FERC and stakeholders about these standards, and will bring the standards into conformance with the *ERO Rules of Procedure* and the latest version of the *Reliability Standards Development Procedure*. Please use the [comment form](#) to provide comments on this SAR.

Standards Development Process

The [Reliability Standards Development Procedure](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate. If you have any questions, please contact me at 813-468-5998 or maureen.long@nerc.net.

Sincerely,

Maureen E. Long
