

Implementation Plan for Project 2010-17: Definition of BES (Phase 2)

Prerequisite Approvals

~~There are no other Reliability Standards or Standard Authorization Requests (SARs), in progress or approved, that must be implemented before this project can be implemented.~~ None.

Effective Dates

This definition shall become effective on the first day of the second calendar quarter after the date that the definition is approved by an applicable governmental authority or as otherwise provided for in a jurisdiction where approval by an applicable governmental authority is required for a standard to go into effect. ~~regulatory approval. Where approval by an applicable governmental authority is not~~ in those jurisdictions where no regulatory approval is required, the definition shall ~~go~~ become effective on the first day of the second calendar quarter after the date the definition is adopted by the NERC Board of Trustees ~~adoption or as otherwise made effective pursuant to the laws of applicable governmental authorities provided for in that jurisdiction.~~

Compliance obligations for the Phase 2 definition would begin:

- Twenty-four months after the applicable effective date of the definition (for newly identified Elements), or
- If a longer timeframe is needed for an entity to be fully compliant with all standards applicable to an Element or group of Elements that are newly identified as BES when the Phase 2 definition is applied, the appropriate timeframe may be determined on a case-by-case basis by mutual agreement between the Regional Entity and the Element owner/operator, and subject to review by the ERO.

This implementation plan is consistent with the timeframe provided in Phase 1.
