

## Implementation Plan

### Project 2015-08 Emergency Operations

### Reliability Standards EOP-005-3, EOP-006-3, and EOP-008-2

#### Applicable Standard(s)

- EOP-005-3 — System Restoration from Blackstart Resources
- EOP-006-3 — System Restoration Coordination
- EOP-008-2 — Loss of Control Center Functionality

#### Requested Retirement(s)

- EOP-005-2 — System Restoration from Blackstart Resources
- EOP-006-2 — System Restoration Coordination
- EOP-008-1 — Loss of Control Center Functionality

#### Prerequisite Standard(s)

None.

#### Applicable Entities

##### **EOP-005 — System Restoration from Blackstart Resources**

- Transmission Operator
- Generator Operator
- Transmission Owners identified in the Transmission Operators restoration plan
- Distribution Providers identified in the Transmission Operators restoration plan

##### **EOP-006 — System Restoration Coordination**

- Reliability Coordinator

##### **EOP-008 — Loss of Control Center Functionality**

- Reliability Coordinator
- Transmission Operator
- Balancing Authority

## **Background**

Implementation of revisions and retirements recommended by the Project 2015-02 Emergency Operations Periodic Review Team clarify the critical methodology requirements for Emergency Operations, while ensuring strong planning, reporting, communication and coordination across the Functional Entities. In addition, the revisions are intended to streamline the standards and apply Paragraph 81 criteria, while making the standards more Results-based and addressing an outstanding directive from FERC Order No. 749.

## **Effective Date**

### **EOP-005-3 — System Restoration from Blackstart Resources**

Where approval by an applicable Governmental Authority is required, the standard shall become effective on the first day of the first calendar quarter that is twelve (12) months after the effective date of the applicable governmental authority's order approving the standard, or as otherwise provided for by the applicable governmental authority.

Where approval by an applicable governmental authority is not required, the standard shall become effective on the first day of the first calendar quarter that is twelve (12) months after the date the standard is adopted by the NERC Board of Trustees, or as otherwise provided for in that jurisdiction.

### **EOP-006-3 — System Restoration Coordination**

Where approval by an applicable governmental authority is required, the standard shall become effective on the first day of the first calendar quarter that is twelve (12) months after the effective date of the applicable governmental authority's order approving the standard, or as otherwise provided for by the applicable governmental authority.

Where approval by an applicable governmental authority is not required, the standard shall become effective on the first day of the first calendar quarter that is twelve (12) months after the date the standard is adopted by the NERC Board of Trustees, or as otherwise provided for in that jurisdiction.

### **EOP-008-2 — Loss of Control Center Functionality**

Where approval by an applicable governmental authority is required, the standard shall become effective on the first day of the first calendar quarter that is twelve (12) months after the effective date of the applicable governmental authority's order approving the standard, or as otherwise provided for by the applicable governmental authority.

Where approval by an applicable governmental authority is not required, the standard shall become effective on the first day of the first calendar quarter that is twelve (12) months after the date the standard is adopted by the NERC Board of Trustees, or as otherwise provided for in that jurisdiction.

## **Definition**

None.

## Retirement Date

### **EOP-005-2 — System Restoration from Blackstart Resources**

Reliability Standard EOP-005-2 shall be retired immediately prior to the effective date of EOP-005-3 in the particular jurisdiction in which the revised standard is becoming effective.

### **EOP-006-2 — System Restoration Coordination**

Reliability Standard EOP-006-2 shall be retired immediately prior to the effective date of EOP-006-3 in the particular jurisdiction in which the revised standard is becoming effective.

### **EOP-008-1 — Loss of Control Center Functionality**

Reliability Standard EOP-008-1 shall be retired immediately prior to the effective date of EOP-008-2 in the particular jurisdiction in which the revised standard is becoming effective.
