

## Standards Announcement

Project 2023-07 Transmission Planning Performance Requirements for Extreme Weather

Final Ballots Open through December 6, 2024

## **Now Available**

Final ballots for TPL-008-1 – Transmission System Planning Performance Requirements for Extreme Temperature Events and its implementation plan are open through 8 p.m. Eastern, Friday, December 6, 2024.

The Standards Committee approved waivers to the Standards Process Manual at their December 2023 meeting. These waivers were sought by NERC Standards for reduced formal comment and ballot periods to assist the drafting teams in expediting the standards development process due to firm timeline expectations set by FERC Order 896.

## **Balloting**

In the final ballot, votes are counted by exception. Votes from the previous ballot are automatically carried over in the final ballot. Only members of the applicable ballot pools can cast a vote. Ballot pool members who previously voted have the option to change their vote in the final ballot. Ballot pool members who did not cast a vote during the previous ballot can vote in the final ballot.

Members of the ballot pool(s) associated with this project can log into the Standards Balloting and Commenting System (SBS) and submit votes here.

- Contact NERC IT support directly at <a href="https://support.nerc.net/">https://support.nerc.net/</a> (Monday Friday, 8 a.m. 5 p.m. Eastern) for problems regarding accessing the SBS due to a forgotten password, incorrect credential error messages, or system lock-out.
- Passwords expire every 6 months and must be reset.
- The SBS **is not** supported for use on mobile devices.
- Please be mindful of ballot and comment period closing dates. We ask to allow at least 48 hours
  for NERC support staff to assist with inquiries. Therefore, it is recommended that users try
  logging into their SBS accounts prior to the last day of a comment/ballot period.

## **Next Steps**

The voting results will be posted and announced after the ballots close. If approved, the standard will be submitted to the Board of Trustees for adoption and then filed with the appropriate regulatory authorities.

For information on the Standards Development Process, refer to the Standard Processes Manual.

For more information or assistance, contact Senior Standards Developer, <u>Jordan Mallory</u> (via email) or at 404-479-7358.
