<p>NEW Draft Reliability Guideline: Recommended Approaches for UFLS Program Design with Increasing Penetrations of DERs The NERC System Planning Impacts of DER Working Group (SPIDERWG) is currently conducting a triennial review of the Reliability Guideline on UFLS Program Design in the context of increasing Distributed Energy Resource (DER) penetration. The NERC Reliability and Security Technical Committee (RSTC) has authorized the guideline for a public comment period lasting 45 days, from March 17, 2025, to May 1, 2025. Additionally, there is a survey to assess the guideline's effectiveness. As part of this review, once you complete the effectiveness survey, you will receive a link to the comment matrix, where you can submit any feedback, you have about the guideline.</p>	<p>Effectiveness Survey</p>	03/17/2025	05/1/2025

STANDARDS NEWS

NEW Supplemental Drafting Team Nomination Period Extended for Project 2023-08

Nominations for Project 2023-08 – Modifications of MOD-031 Demand and Energy Data drafting team members have been extended and are now open through 8 p.m. Eastern on April 28, 2025. Use the [electronic form](#) to submit a nomination. Contact [Cindy Jackson](#) regarding issues using the electronic form. An unofficial Word version of the nomination form is posted on the [Standard Drafting Team Vacancies](#) page and the [project](#) page.

The time commitment for this project is expected to consist of mostly conference calls, with occasional face-to-face meetings (an average of two full working days each meeting). The conference calls and face-to-face meetings will be scheduled as necessary to meet the agreed-upon timeline the drafting team sets forth. Team members may also have side projects, either individually or by sub-group, to present to the full drafting team for discussion and review. Lastly, an important component of the team effort is outreach. Drafting team members will be expected to conduct industry outreach during the development process to support a successful project outcome. By submitting a nomination form, you are indicating your willingness and agreement to actively participate in conference calls and face-to-face meetings. Previous drafting team experience is beneficial but not required. See the project page and nomination form for additional information.

Nominees will be notified shortly after they have been appointed. For information on the Standards Development Process, refer to the [Standard Processes Manual](#). For more information or assistance, contact Standards Developer, [Josh Blume](#).

BOARD OF TRUSTEES AND FERC ACTION

NEW FERC, NERC Issue Report on System Performance During the January 2025 Arctic Weather

The Federal Energy Regulatory Commission (FERC), NERC, and its Regional Entities said today that the country’s Bulk-Power System performed well during successive cold weather events in January 2025, without major issues in either the natural gas or electric systems. The performance of the system, according to the joint report, demonstrates the benefits of actions taken in response to prior winter storm reports’ recommendations and the need for continued coordination between natural gas and electric systems in preparing for and responding to extreme cold weather. NEW Lauby Briefs FERC on NERC Actions to Address Reliability Impacts from Large Load Integration

During the April 14, 2025 FERC open meeting, Mark Lauby, NERC’s senior vice president and chief engineer, briefed FERC about recent load loss events. He provided insights into several initiatives launched by NERC to address the reliability impacts of large load integration with the grid. NERC has posted the [announcement](#), a [recording](#), and [slides](#) from the presentation.

ABOUT THE STANDARDS, COMPLIANCE, AND ENFORCEMENT BULLETIN

This weekly bulletin compiles a list of standards, compliance, and enforcement projects with actionable deadlines, as well as upcoming events, recently posted resources, other NERC documents posted for comment, and other relevant news and information. Please email [Maureen Murtha](mailto:Maureen.Murtha@nerc.gov) with feedback on this bulletin. The current bulletin and old bulletins are available under “Program News” on both the [Standards home page](#) and the [Compliance & Enforcement home page](#).

REGISTRATION: If you would like to receive this bulletin or be added to a NERC distribution list, you **must** first register an account in the [ERO Portal](#). Once you have registered your ERO Portal account, authenticated your credentials with DUO, and completed your profile, please submit a ticket through the [Help Desk](#) by selecting the “NERC Email Distribution List” option under the Applications menu. In the Description Box, please specify which lists you would like your email address to be added to. If you are unsure of which distribution list –you would like to be added to, an excellent starting point is the “[Committee](#)” page. You can note the committee abbreviation, which represents the distribution list you would like to join, in the Description Box. If you have other NERC-related or specific Standards projects you’re interested in, you may request those as well. If you’re interested in general information, please request to be added to the NERC-info distribution list, which covers most NERC announcements. This bulletin is distributed to several lists, including the Standards distribution list (Standards-specific announcements) and the NERC-info distribution list.
